Utopia Virtual Reality Headset

**FEATURES**

1. Device cartridge fits mobile devices up to 3 x 6 x .39 in size.
2. Sliding front panel door allows you to access your mobile device while it is inserted in the virtual reality headset.
3. Adjustable lens and focal distance.
4. Adjustable elastic head strap.

**GENERAL OPERATION**

1. Open the APP store on your mobile device and search for APPs using the keyword "VR" or "Virtual Reality". The search results will show APPs that are compatible with virtual reality headsets.
2. Download and install the desired APP you would like to use with the virtual reality headset.
3. Put the virtual reality headset on and adjust the head straps as needed until it sits comfortably on your head.
4. Extend the device cartridge and insert the mobile device into the cartridge. Center your mobile device within the cartridge and secure with the mobile device grips included with the headset. Slide the device cartridge back into the virtual reality headset when complete.

**ADJUSTING THE VIEW**

Before you can experience virtual reality APPs, please ensure that the image is focused and the lens and focal point distance is adjusted to accommodate your eyesight.

1. To adjust the focal point, slide the small focal point knobs left and right while you are using the virtual reality headset. Continue to adjust the focal point until the image comes into focus.
