

# BEEKMAN 1802

## Scent Profiles & Notes

There are three types of notes used to develop a scent; a top note (T), a middle note (M), and a base note (B).

**Top notes** are the first scent you experience when you first apply the product.

The **middle notes** are the scent results after the top note has faded a little.

Finally, you then have the **base note**, which are the scents that reveal itself after the product sits on your skin and warms up to your body temperature.

### Vanilla Absolute

Madagascar vanilla and soothing aloe melt together to create a warm and cozy scent.

**Scent notes:**

**T:** Sheer Lily, Dewy Muguet, Orange | **M:** Vanilla, Golden Amber

**B:** Sandalwood, Cedar, Patchouli | **Essential Oils:** Cedarwood, Orange, Patchouli

### Honeyed Grapefruit

Touches of guava and pink grapefruit offer a sparkling sweet scent for an amazing morning pick me up.

**Scent notes:**

**T:** Pink Grapefruit, Orange | **M:** Lemongrass, Jasmine, Apple

**B:** White Woods | **Essential Oils:** Litsea, Orange

### Honey & Orange Blossom

Aromatic blend of mock orange flowers and peony blossoms grown on the Beekman 1802 farm, honey, and rosemary verbena complement each other to create a dreamy citrus and floral scent.

**Scent notes:**

**T:** Apricot, White Nectarine | **M:** Mimosa, Pink Peony, Apple Peel

**B:** Creamy Vanilla | **Essential Oils:** Orange, Davana
